

GOWANUS CANAL COMMUNITY ADVISORY GROUP (CAG)

your local voice for Superfund

For more information: www.GowanusCAG.org

The following CAG resolution requests formal consideration by the indicated parties to conduct activities related to the Gowanus Canal Cleanup with regard to the concerns and interests of the Gowanus community.

TITLE: Fish-Consumption Warning Signage at the Gowanus Superfund Site

TO: Christos Tsiamis, Senior Project Manager, Gowanus Canal Project U.S. EPA Region 2

DATE: March 27, 2018

The Gowanus CAG is hereby requesting the EPA install or cause to be installed Fish-Consumption Warning Signage around the Gowanus Superfund site. We ask that such warnings be placed in reasonable likely fishing locations and at each public access location where people can easily make physical contact with the canal waters; and we ask that there be a minimum of 12 signs installed along the Gowanus Superfund site. We also ask that such signage be posted in English and Spanish with clear universal graphics.

We understand that this is a reasonable action as such signage has been installed in other Superfund sites and provide one example here, using simple two-color printing on a white metal panel. We ask that the text provide specific information for the Gowanus Superfund site.
