

**Archeology Committee Agenda**  
**August 3, 2026**

**Celeste's survey**

1. Discuss ways to get the Storyboard and other materials out to the community. Outreach help? Put on the website? Is Instagram set up for this? Michael?
2. Joan reported that Clinton and Union St library scheduled to open in the fall. What would an email to the library say? Library should be very interested in the Storyboard. **Let's draft.**
3. Agreed to work with Outreach and Celeste at Dredgers for an event including a projection of the Gowanus Graffiti materials and various dredged objects. Celeste is interested – slideshow of graffiti, objects displayed? Joe hopefully has slideshow ready.
4. Joan emailed Quadrozzi to set up a visit with Peter to the site and get photos and a sense of what could potentially be moved for display. See below – does anyone have a relationship with him? Maybe Michael could follow up and introduce himself?
5. Joan did another paddle to capture some of the stuff along the Canal.
6. Peter suggests that a few of the images in our collection of graffiti be printed and framed and ask the nearby buildings where the artwork was to display in their space. See notes in the Gowanus Graffiti collection. **How to raise \$ for framing?** Donations?

**STILL to DO**

7. New semester so outreach to Brooklyn College Museum Studies Program and to Pratt's archeology team is timely now to see if there are any opportunities there. <https://www.brooklyn.edu/bc-news/curating-excellence/>. If we are going to set up exhibits they may be able to help. [bbingham@pratt.edu](mailto:bbingham@pratt.edu) - What should an email to these programs say? Draft at this meeting

Hi, Mr. Quadrozzi:

I am following up on our emails of a few weeks ago about a visit to the container to refresh our recollections and take photos of the items there as we work towards how to arrange displaying them at some point. I hope we can arrange something either this or next week.

As I wrote in a separate email chain, Linda Mariano was a dear friend and neighbor - she lived across the street from me. We spoke almost every day. I miss her and Joe terribly. Sorry for the confusion about the other Linda.

I look forward to hearing from you.

Thanks so much,

Joan.

When would work for you, Mr. Quadrozzi? We can figure out how to work around your schedule. Most mornings (except Thursdays) are good for me as is early afternoon.

Joan.

Hi John and Joan,  
Thursday afternoon around 2 is good for me, does that work for both of you?  
Thanks,  
Peter

Thank you so much for getting back to me so quickly!

Are we speaking about Linda LaViolette? I am in touch with her. I will follow up on that!

Both Thursday and Friday afternoons of this week are good for me. Peter? John?

Joan.

Hi Joan,

Sure, lmk some dates and times.

Note that there was discussion on potentially setting up a display kiosk made from sea containers with glass for public visibility to be an installation at **GBX™~Gowanus Bay Terminal** - Columbia St. Warft - *on the edge of industry!*

As Linda was always the communication conduit, and it's been some time since we lost her lovely self, please lmk where the discussion has gone.

**Subject:** Visit to the storage bin of dredged objects - CAG Archeology Committee

Good evening Mr. Quadrozzi:

I am reaching out on behalf of the Gowanus Community Advisory Group's Archeology Committee. Peter and I would very much like to visit your space to photograph the items in the storage unit that have been on your property for quite some time now. I came down once before with a group from Pratt but this time we really would like to assess what is there, whether we have the capacity to move any of it for display (with your permission, of course) and make sure we have good photos of the objects.

I hope that you can let me know when would be a good time to visit.

Thanks so much,

Joan Salome-Rodriguez  
Moderator, Archeology Committee.
